

UNDER COSIRA CONSTRUCTION

**STRUCTURAL | MECHANICAL | COSIRA ELECTRICAL & INSTRUMENTATION | PLATEWORK
PIPING | CONSTRUCTION | COMMUNICATIONS**

Join us on our global journey

The Cosira Group is one of the largest privately-owned SMEIPP (structural, mechanical, electrical, instrumentation, platework and piping) construction companies in South Africa.

Having recently unveiled our enviable state-of-the-art steel fabrication facility - Cosira Vulcan, we are establishing a significant footprint in Southern Africa. Preparation is now in motion for the next phase of our incredible journey into the future of steel, embracing the process of global expansion we are opening our first international office outside Africa in Santiago, Chile – South America.

As the leading steel construction group in Southern Africa, the Cosira Group provides world-class construction solutions for the mining, petrochemical, power generation, industrial, telecommunications, and commercial industry sectors.

Our Core Steel Construction Competencies include:

- Project Management
- Detailing in 3D TEKLA and STRUCAD
- Fabrication of structural steelwork, conveyers and platework
- Corrosion Protection
- Logistical Plant and Equipment
- Site construction

Subsidiaries:

- Cosira Electrical and Instrumentation (E & I)
- Cosira Piping – Fabrication and Construction
- Cosira Towers – Telecommunication and Transmission Towers
- Cosira Communications – Tower Manufacturing, Turnkey Site Build, Telecom Installation, Fibre Optic Projects & Managed Services

Today *Africa*, Tomorrow, *the World*.
